SUMMARY

Information Systems student (GPA: 3.86/4.00) with hands-on experience across full-stack development (Python, JavaScript, SQL), native Android (Java, Android Studio, Firebase), cloud services (AWS S3), and practical IT troubleshooting. Builder of multiple end-to-end applications spanning web, mobile, and database systems, comfortable working within structured SDLC processes and managing work in ClickUp/Jira, complemented by cross-functional leadership as Vice President of Outgoing Global Exchange at AIESEC and strong professional English communication.

EDUCATION

Associate Degree, Information System (D-III Sistem Informasi)

Aug 2024 - Aug 2027

Universitas Pembangunan Nasional "Veteran" Jakarta (UPNVJ), Faculty of Computer Science

- Key Focus: System Analysis, Database Management, and Full-Stack Development.
- Current GPA: 3.86/4.00

TECHNICAL PROJECTS

Clynic – Clinic Management System

React 19 + Vite, Node.js/Express, MySQL

- Designed and built a full-stack clinic management system with role-based access control (admin, doctor, staff), appointment handling, and reporting (XLS/PDF export).
- Modeled the relational database schema and produced system documentation, including architecture diagrams and black-box test cases, as part of a software engineering (PPL) project following a structured SDLC.

GeoConnect

React Native, Expo, Firebase, Android Studio

- Built and debugged a location-based mobile app, including Firebase configuration, Google Sign-In OAuth integration, and SHA-1 keystore setup for production Android builds.
- Resolved recurring EAS build/deployment failures to ship a stable release build.

MoneyWise

Python, HTML, SQL

- Architected a web-based financial management app with a SQL-backed data layer and an integrated AI chatbot for real-time financial insights.

Java Games (Greenfoot)

Java, OOP

- Built an RPG game and a Cat-and-Mouse game applying core OOP principles: classes, inheritance, collision detection, and game state logic.

Gunadarma Code Week Hackathon – 23rd place

Business Strategist

- Contributed to a health-tech app (AI calorie scanner and diet tracker); led business strategy covering revenue model and stakeholder alignment.

WORK EXPERIENCE

Freelance IT Technician

2024 - Present

- Diagnose and repair hardware/software issues on computers and phones, including OS installation, component replacement (HDD/SSD, RAM, keyboard), and malware/virus removal.
- Manage client communication end-to-end, from problem diagnosis through after-service support.

Freelance English Instructor | Educator

Aug 2025 - Present

- Instructed 50+ students (Elementary to University level), improving their language proficiency.
- Translated complex concepts into digestible lessons, honing communication skills for diverse audiences.

ORGANIZATIONS

AIESEC in UPNVJ – LCVP of Outgoing Global Exchange

Feb 2026 - Feb 2027

- Lead and manage a team coordinating outgoing exchange programs, overseeing planning, member development, and stakeholder communication using ClickUp for task and project tracking.

AIESEC in UPNVJ – Staff of International Relations

Feb 2025 - Feb 2026

- Expanded partnerships with AIESEC entities in other countries and coordinated routine international partner calls.
- Organized events with international partners and members; served as OCP Partnership for a local project.

KEY SKILLS

Programming: Python (Advanced), Java (OOP fundamentals), SQL (MySQL), JavaScript, HTML5, CSS3

Mobile: Android Studio, React Native, Expo, Firebase

Cloud & Systems: AWS (S3), System Analysis, Database Design & Management, Full-Stack Development, API Integration, Google Cloud

Software Development: Software Development Life Cycle (SDLC), Version Control (Git/GitHub)

Project Management Tools: ClickUp, Jira

IT Support: Hardware Installation & Repair, Windows OS Installation & Configuration, Device Diagnostics

Tools: Git, GitHub, VS Code, Microsoft Office

AI & Optimization: Prompt Engineering, IBM Granite Models, Generative AI for Software Development

Management: Team Management, Strategic Planning, Stakeholder Relations, Synergizing

Languages: English (Professional Proficiency), Indonesian (Native)
